# Maternity Pads

- Extra absorbent, thick and comfortable, MedPride® postpartum pads are just what woman needs during those after-birth days when her body still cleanses itself.
- MedPride® maternity pads feature a dense and ultra-absorbent core that instantly catches and traps any liquids to keep you feeling dry and comfortable for hours. The leakproof backing also prevents leaking and stains for mess-free wear. Just what busy new mommies need.
- Made of the highest quality, skin-friendly materials, MedPride® latex-free birth recovery pads feel ultra soft against delicate skin to care even for women who had a natural delivery or a C-section. They also come with a durable sticker for firm placement that ensures the maxi pad will stay in place.

# UR24T TRUECLR™

## External Catheter System

An external catheter system comfortable for men, women and pediatrics.

The TrueClr external catheter is an innovative solution to preventing Catheter Associated Urinary Tract Infections (CAUTIs).

### TrueClr Benefits:

The Ur24T portfolio is the world's first completely external catheter system designed to actively empty the bladders of adults and pediatrics, while eliminating CAUTIs.

- Non-invasive, non-adhesive, easy-to-apply
- Male and Female versions for proper fit
- Latex-free and hypoallergenic
- Leak-proof design
- Avoids urine contact with skin

**All TrueClr systems are Medicare and Medicaid (CMS) reimbursable.**

### Information:

- FDA class 1 & CE mark
- Ur24T is ISO 13485 compliant
- Ur24T is Medicare Part B DME reimbursable
- Made in the U.S.A.

# Kinesiology Tape

- Strong adhesion and long-lasting support
- Waterproof and sweat-resistant
- Latex-free and Hypoallergenic
- Stretches up to 180% for full range of motion

# Cotton Crepe Bandages

Soft and conformable, these bandages are ideal for providing light support. They are durable, washable and reusable making them a cost effective bandaging solution.

- Provides reinforcement for strains, sprains and weal joints
- Shapes around contours of the joint offering enhanced support
- Clips included for secure placement
- Lightweight and breathable
- Multi use
- Each roll individually wrapped
- 100% Cotton
- Not Made with Natural Rubber Latex

 Non-Sterile

Reorder No:	Size	Packaging
<b>MPR-60943</b>	3" x 4 Meters	40/12/cs
<b>MPR-60944</b>	4" x 4 Meters	30/12/cs
<b>MPR-60946</b>	6" x 4 Meters	20/12/cs

# Plaster of Paris Bandages\*

Made from natural materials, our gypsum bandages are non-toxic and gentle on the skin, ensuring safety as you craft. Each roll comes pre-loaded with powdered plaster. Immerse the bandage in water, lay it onto your project, and mold it as desired. Within 10-15 minutes, your casting solidifies and is ready for embellishing, coloring, or showcasing.

- Molds to every contour for a precise fit
- Very low wet or dry plaster loss for a creamy mold
- Features improved plaster formula for consistency
- Low exotherm
- Each roll individually wrapped
- Not Made with Natural Rubber Latex

 Non-Sterile  Do Not Reuse

# Sharps Containers

## REGULATED MEDICAL WASTE

### Sharps Waste Only

Made in the USA

The automatic rotating chamber is designed to safely deposit sharps into the puncture resistant container. If necessary, sharps can be dropped manually by using the actuating lever.

- Designed to safely dispose of used medical needles and other sharps
- Crafted with puncture-resistant plastic for improved safety
- Transparent lid allows for visual monitoring of contents to avoid overfilling
- Wide openings allow for horizontal drop for maximum capacity to fill line
- Containers lock for final disposal
- Ideal for EMS, hospitals, nursing homes, clinics, and medical offices

## **PETRI DISHES & SAMPLING BAGS**

# Petri Dishes

## Manufactured under ISO 13485 management system

MedPride® Petri dishes are designed and produced under the highest quality standards for optimal performance and ease-of-use to offer excellent optical quality for healthy cells growth.

**Stackable Petri Dishes:** Recommended for standard microbiology or general laboratory use. Lids contain stacking rings for increased stability.

**Slippable Petri Dishes:** Designed for automated filling and streaking systems. With side arrows and ISO Mark Target for automation.

- Routine performance testing
- Uniform wall thickness ensures distortion-free bottom
- Flat growth surface & maximal transparency
- Allows excellent analysis
- Raised upper edge on the lid well matches the bottom to keep stacked dishes stable
- Lid without vents

 Do Not Reuse

# Sterile Non-Filter Sampling Bags with Flat-Wire Closures

MedPride® Sterile Non-Filter Sampling Bags are ideal for transportation and storage of solids, semisolids, and liquids for environmental and carcass sampling, biomedical and pharmaceutical research, quality assurance procedures, food industry applications, and clinical and veterinary medicine.

Bags are made of highly resistant virgin polyethylene sterile tubing with no side seals. They feature a wire closure for an airtight seal, and wide-sealed bottoms for added leakproof protection.

To use, tear off perforated top, pull tabs to open bag, fill, grab ends of tape closure and pull shut, twirl bag three or four times to seal, and bend ends of closure inward to lock the seal.

- An economical and efficient way to collect, contain and carry samples
- Clear sample identification for organization and traceability
- Maximum protection against leaks
- Extreme film clarity and strength
- Highly resistant
- Sterile to avoid sample contamination
- Not Made with Natural Rubber Latex

Do Not Reuse

<b>MPR-94059</b>	5500 ml	2/100/cs

# Sterile Filter Sampling Bags

## with Wire Closures

MedPride® Sterile Filter Bags have a third layer of finely perforated polyethylene that filters out solids in the sample.

The filter layer inside the bag is sealed into both sides and bottom perimeter, allowing the sample to be placed in the bag on either side. Liquids of a blended sample will transfer through the filter, while solids remain separate and contained. The hole diameter in the filter layer measures .33 mm (.013 inches), 330 microns, and there are 285 per square cm (1,840 per square inch).

- Economical and efficient way to collect, contain and carry liquid or solid samples
- Mouth reinforced by a wired band with integrated loop tabs
- Write-on area for easy labeling
- Leak-proof and airtight
- Sterile to avoid sample contamination
- Not Made with Natural Rubber Latex

 Do Not Reuse

# Status Flu A&B Rapid Antigen Test (POC)

Status™ Flu A & B test is a rapid, CLIA Waived, easy to use rapid flu test for Influenza A +B antigens! This test is an in vitro rapid qualitative test that detects influenza type A and type B antigens directly from nasal swab, nasopharyngeal swab and nasal aspirate/wash specimens.

This test is authorized for use at the Point of Care (POC), i.e., in patient care settings operating under a CLIA Certificate of Waiver, Certificate of Compliance, or Certificate of Accreditation.

## Pack Size

- Box of 25

## POC (CLIA-WAIVED) Flu A&B Rapid Antigen Test Kit

### Contents

- 1 box of 25
- 25 tests per box
- 25 Test devices
- 25 Extraction reagent in capsules
- 25 Sterile swabs
- 1 Positive and negative control swabs

# Nano-Check™ RSV Test (POC)

The Nano-Check™ RSV Test is a rapid immunochromatographic assay for the qualitative detection of respiratory syncytial virus (RSV) nucleoprotein antigen in anterior nasal swab specimens from patients with signs and symptoms of respiratory infections. This test is intended for in vitro diagnostic use to aid in the diagnosis of RSV infections in infants and pediatric patients aged 6 months to 6 years old, and adults over 60 years of age.

## Pack Size

- 25 tests per box

## POC (CLIA-WAIVED) RSV Rapid Antigen Test Kit

### Contents

- 25 Test devices in sealed aluminum foil pouch with desiccant
- 25 Reagent tubes prefilled with extraction buffer (350 µL) and dropper tips
- 25 Sample collection swabs (Anterior Nasal)
- 1 Positive control swab (noninfectious RSV antigen)
- 1 Negative control swab (noninfectious nasal clinical matrix)
- 1 Instructions for Use

### Specimen Type

- Anterior Nasal Swab

# Rapid Response™ Strep A Detection Strip (POC)

The Rapid Response™ Strep A Detection Strip is a rapid test for the qualitative detection of Streptococcus pyogenes (Group A  $\beta$ -hemolytic Streptococcus, Strep A) antigen from throat swab specimens of symptomatic patients to aid in the diagnosis of Group A Streptococcus bacterial infection, providing results within 5 minutes.

## Pack Size

- Box of 25
- Case of 500 (20 boxes)

## POC (CLIA-WAIVED) Strep A Rapid Antigen Test Kit

## Contents

- 1 box of 25
- 25 Test Strips
- 25 Sterile swabs
- 25 Disposable extraction tubes (One tube for each test strip)
- 2 Tube Holders
- 1 Positive and negative control swabs

# Rapid Response™ Pregnancy Test Strip (POC)

The Rapid Response™ Pregnancy Test Strip is a rapid visual immunoassay for the qualitative, presumptive detection of human chorionic gonadotropin in human urine specimens. This kit is intended for use as an aid in the early detection of pregnancy.

## Pack Size

- Box of 50
- Case of 2,500 (50 boxes)

## POC (CLIA-WAIVED) Pregnancy Test Strip

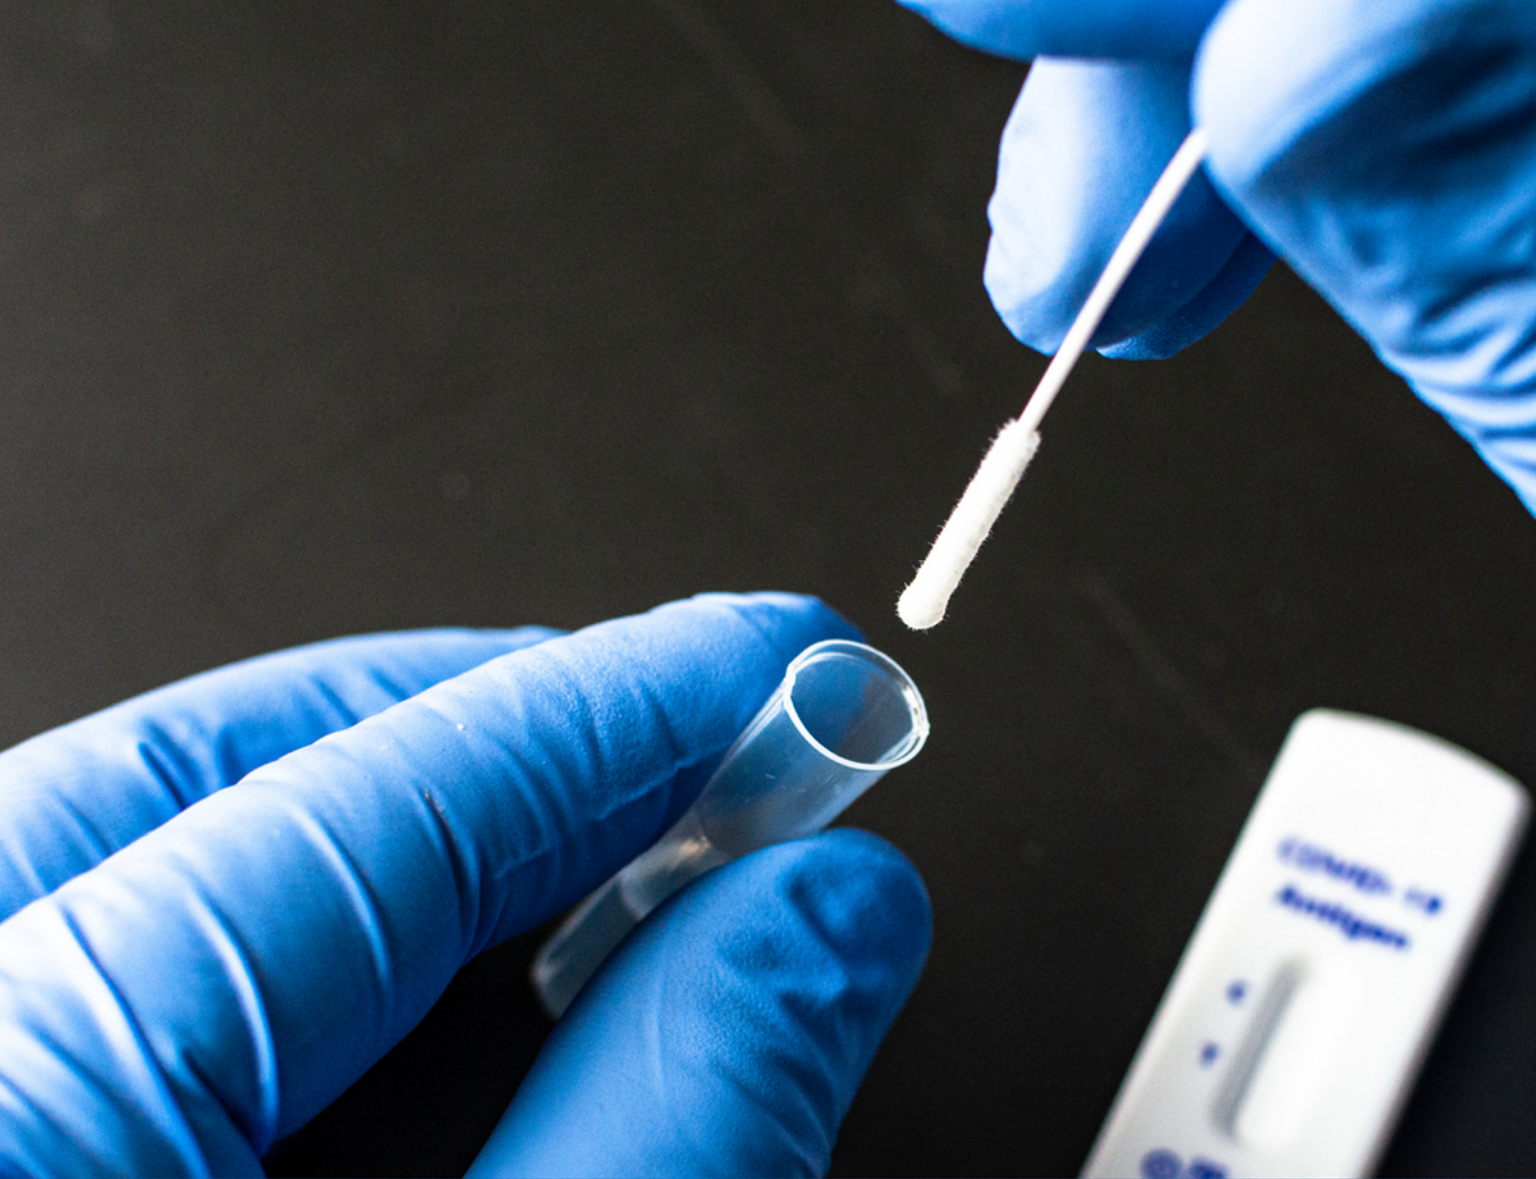

## Contents

- 50 tests per box
- 50 Test Strips
- 1 Product Insert

# INDICAID® COVID-19 Rapid Antigen At-Home Test

## - 2 pack

INDICAID® COVID-19 rapid test detects SARS-CoV-2 antigens and its variants — specific proteins found on the surface of the virus.

These proteins are produced when the virus is actively replicating in your body.

By identifying them, the test quickly determines if you're currently infected with COVID-19.

It's the same trusted method used in clinical settings, now available for fast, reliable results at home.

# INDICAID health - Sexual Health 2 tests for Chlamydia and Gonorrhea - 2 pack

Sexual Health 2 tests for Chlamydia and Gonorrhea.

INDICAID health at-home collection gives you the ability to test in the privacy of your own home with everything provided for you.

This is a urine collection sample.

We provide virtual care options with a board-certified physician regardless of your results, allowing you to get the right treatment early and stay healthy.

Rest assured that your privacy and confidentiality are of utmost importance to us.

Our test is discreetly packaged, and all personal information is handled securely and with the utmost discretion.

## Pack Size

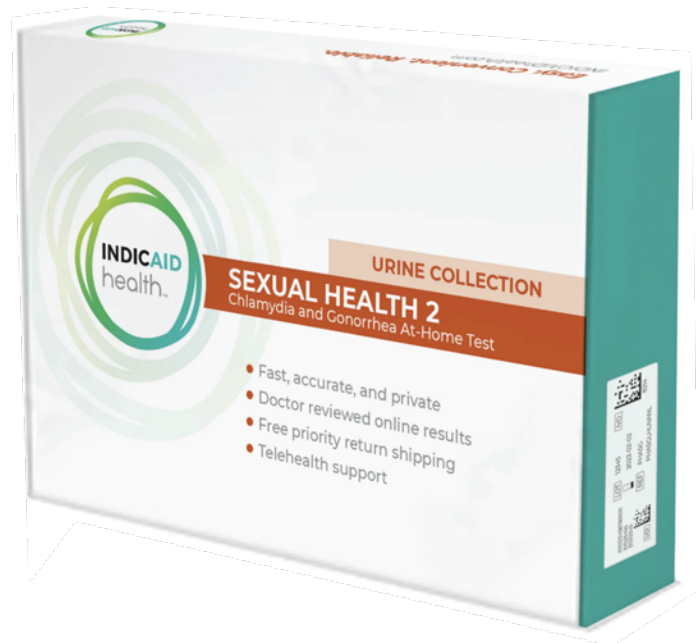

- 2 tests per kit

## Contents

- Collect sample
- Ship sample
- Receive results
- Utilize complimentary telehealth consult
- Receive treatment

## Specimen Type

- Anterior Nasal Swab

# RELI Safety Blood Collection Set with EZ-Flash Technology

- Enables immediate visualization of flash in front of the butterfly and direct verification of vein entry while holding the wings, improving efficiency and accuracy while reducing user hesitancy and errors
- Provides integrated subcutaneous in-vein activation while withdrawing or ease of use
- Flexible, color-coded wing for improved tactile feel and easy gauge identification
- One - or two-handed irreversible activation
- Audible click when needle is in final lock position
- Features single-handed safety shield activation for convenience and ease of use
- Siliconized short bevel needle for smooth insertion
- Computerized grinding and 100% visual camera inspection ensures sharp, consistent, quality needles

# RELI Push Button Safety Blood Collection Set

- Intuitive design to aid in efficiency, comfort and safety
- Robust wings for improved feel and control during venipuncture
- Gauge identification made easy with the color-coded wings and labeling
- Approved for short-term infusion (<2 hours)
- High flow rate design
- One-handed safety activation with audible “click”
- Not made with natural rubber latex
- User-friendly packaging designed to reduce coil memory in tubing
- Visible indicator arrow for activation
- Compatible with most brands of tube holders

# Retractable VanishPoint Blood Collection Set

RTI's Blood Collection Set features automated in-vein retraction, which effectively reduces the risk of needlestick injuries and blood exposure.

When activated, needle retraction clamps the tubing, reducing the risk of exposure to blood. Another unique feature is the clear body, which allows for flashback visualization. The trigger design reduces the risk of inadvertent activation. VanishPoint blood collection sets are not made with natural rubber latex, PVC, or DEHP.

 Do Not Reuse

# NIPRO Blood Collection Needle

Nipro's blood collection needles are designed for multiple tube samples and may be used in combination with a blood tube holder. A high quality, three-beveled siliconized needle ensures a smooth and gentle vein insertion, minimizing patient discomfort.

## Features

- Packed 100/box, 10 boxes/case
- Available in gauges 20-22, sizes 1" – 1½"
- Color-coded hubs assure accurate and convenient gauge size identification

The needle is ultra-sharp and with smooth edges for ease of penetration, resulting in the atraumatic insertion. Multiple-draw needle design provides the convenience of several sample collections with a single vein puncture.

# Retractable EasyPoint Blood Collection Tube Holder with Needle

The EasyPoint Blood Collection Tube Holder with Needle allows for in-vein activation, effectively reducing exposure to the contaminated needle. Once activated, both ends of the blood-filled needle are safely enclosed.

- Automated needle retraction
  - Provides instant safety
  - Entire needle (front & back end) is completely covered when retracte
- Allows for in-vein activation, which effectively reduces exposure to the contaminated needle
- Pre-attached needle - no assembly required
  - Prevents exposure to the back end needle
  - Improves eciency in preparation time
- Integrated, low-profile tab provides optimal view of venipuncture site
- Easy, one-handed activation allows hands and ngers to stay behind the needle during activation
- Prevents needle removal from the holder, which is prohibited by OSHA regulations
- Single-use holder complies with safety regulations

## 3.5V Modular Diagnostix Wall System with ADView 2

Our 3.5V diagnostic EENT instruments are among the most critical tools for performing a comprehensive physical exam. ADC offers more than 1,000 configurations of our 3.5V Diagnostix Adstation, a wall-mounted solution that puts these essential instruments within easy reach. This page features several modular solutions that combine an ADView 2 with our otoscope and ophthalmoscope base unit.

### Adstation 5610-39W and 5680-39W wall systems feature:

- ADView 2 modular diagnostic station with optional pulse oximetry and thermometry
- 3.5V Diagnostix Coax Plus Ophthalmoscope or Coax Ophthalmoscope
- 3.5V Diagnostix PMV Otoscope or Standard Otoscope
- Add a 429 Non-Contact Thermometer
- Add a 3.5V Diagnostix Throat Illuminator or Dermoscope
- Choose from Halogen/Xenon or high-performance AdLED lighting technology
- Three-year warranty on ADView 2 modules
- Three-year warranty on Adcuff inflation systems
- Five-year warranty on wall transformer and extension module
- Five-year warranty on instrument heads
- Lifetime warranty on AdLED lamps

# ADView® 2 Modular Diagnostic Station

ADC, a world leader in core diagnostic products for more than 30 years, has partnered with SunTech Medical®, the premier developer of innovative blood pressure technology, to create the next generation in modular diagnostics: The ADC ADView 2 Modular Diagnostic Station.

- Clinical-grade Advantage™ BP technology from SunTech Medical
- Contemporary, compact design with an integrated handle and easy-to-read display
- Manual blood pressure mode for real-time verification
- Customizable average mode options
- Next-generation EMR ready with HL7 messaging for electronic data transfer
- Network enabled with built-in Ethernet or optional Wi-Fi
- Lithium-ion power for longer-lasting battery life and a lighter weight
- Built-in memory with up to 99 charting sessions
- New Pediatric Mode to ensure accurate measurements for younger patients
- Firmware upgradeable
- Two Adcuff+ cuffs included: Adult and Large Adult

# Advantage Connect® 6115

## Automatic Digital BP Wrist Monitor

The Advantage Connect® 6115 offers the same professional-grade accuracy and smart technology found in our upper-arm models in a compact, travel-ready design. Ideal for users who want a more portable monitoring solution, it combines convenience and connectivity with features like Bluetooth data transfer, audible readings, and MAM Advantage™ triple-measurement averaging. Lightweight yet powerful, the 6115 makes it easy to keep track of your blood pressure anytime, anywhere.

### The 6115 accurately measures systolic, diastolic pressure, and pulse, and features:

- Irregular heartbeat detection offers warning signal at the appearance of an irregular heartbeat
- Traffic light indicator visualizes readings against American Heart Association hypertension scale
- MAM Advantage™ mode automatically averages three readings for superior reporting accuracy
- Identifies AM and PM readings to help detect morning hypertension
- Wireless Bluetooth connectivity allows you to pair the unit with our free ADC@Home App and seamlessly transfer data and readings to your smartphone or other hand-held device
- Two-User memory stores up to 199 readings per user with date and time stamps
- Guest Mode option
- Audible readings
- Measurements performed on inflation with Smart Logic Modulation (SLM) Technology for more comfortable, accurate readings

Product Code	UPC	color
6115	634782101688	White

# Advantage™ Plus 6121

## Automatic Upper-Arm Digital BP Monitor

The Advantage™ Plus 6121 starts with the essentials and adds enhanced features for greater insight and convenience. Designed for users who want more control over their readings, it adds innovations like MAM Advantage™ triple-measurement averaging, a color-coded hypertension indicator, and optional AC power — all while maintaining the comfort, accuracy, and simplicity you expect from ADC.

### The 6121 accurately measures systolic, diastolic pressure, and pulse, and features:

- Measurements performed on inflation with Smart Logic Modulation (SLM) Technology for more comfortable, accurate readings
- Optional AC adapter (sold separately)
- MAM Advantage™ mode automatically averages three readings for superior reporting accuracy
- Traffic light indicator visualizes readings against American Heart Association hypertension scale
- ADC's proprietary Comfort Contour™ design for a precise fit and more accurate readings, available in three standard size options: Adult Extended Range, Large Adult, and Small Adult.
- Advanced two-user memory stores 99 readings for each with date and time stamps
- Large, easy-to-read LCD with backlight display measures 2.6" x 2.5" (66.2 mm x 62.5 mm)
- Irregular Heartbeat detector provides early indication of potential heart rhythm issues
- Automatic inflation and deflation control
- Automatic sleep mode conserves battery life
- Four AAA batteries included
- 5-year warranty
- Clinically approved under ISO81060-2:2018
- Not made with natural rubber latex

Product Code	UPC	Color	Size
6121	634782101657	Navy	Adult (22-42 cm)

# Diagnostix™ 752M

## Mobile Aneroid Sphyg

The 752M offers our clock-face aneroid with a versatile mobile platform for the ultimate in portability.

### The traditional Adcuff variation features two-piece cuffs and bladders:

- Durable 210 denier nylon construction
- Integral flap that secures bladder and prevents bulging
- ADC's proprietary Size Guide marking system prevents mis-cuffing
- Longer limb ranges for improved patient coverage
- Gauge hang tab (on most sizes), bladder flap, and "property of" tag
- Hook-and-loop adhesive rated to a minimum of 30,000 open/close cycles
- Three-year warranty on cuffs

Product Code	UPC	Color	Size
752M-11ABK	634782066628	Black	Adult (23-40 cm)

# Diagnostix™ 788+

## Palm Aneroid Sphyg with Adcuff+

Our 788 is a versatile palm style aneroid sphygmomanometer boasting precision-crafted performance, rugged durability, and an oversized, color-matched case.

### The Adcuff+ model features our all-new, one-piece, reusable nylon blood pressure cuff:

- Bladderless construction from TPU-coated, 70 denier nylon that's simple to use and easy to clean
- Surface-mounted tube ports for a more uniform fit around patient limb
- ADC's proprietary Size Guide marking system, which helps prevent mis-cuffing
- Longer limb ranges for improved patient coverage
- Hang tab (on most sizes) fits conventional pocket gauges
- Hook-and-loop adhesive rated for tens of thousands of cycles
- Three-year warranty on cuff

Product Code	UPC	Color	Size
788-11an1	634782096113	Navy	Adult+ (23-40 cm)

# Diagnostix™ 5510/5580

## 3.5V Diagnostic Desk Sets

3.5V Diagnostic EENT instruments are among the most critical toolsets in a clinician's repertoire when performing a comprehensive physical exam. ADC Diagnostix-brand EENT instrument sets help practitioners perform fast, accurate, and efficient exams thanks to innovative optics, advanced lighting technologies, and long-lasting power sources.

### Diagnostix Desk Sets feature:

- Two Li-ion Adtronic rechargeable battery handles for improved performance
- Choose a 3.5V Diagnostix Ophthalmoscope head: Coax or Coax Plus
- Choose a 3.5V Diagnostix Otoscope head: PMV or Standard
- 50 hours continuous use between charges, 1,200 cycle life
- 3.5V Throat Illumination head available
- 3.5V Dermoscope head available
- Choose from Halogen/Xenon or AdLED lighting technology
- Desk Charger holds up to two instrument handles and spare specula and comes complete with wall-mount bracket and hardware
- Includes universal power supply with U.S. plug
- Two-year warranty on desk charger, instrument heads, and handles; lifetime warranty on AdLED lamp

# Adtemp™ 424N

## Tympanic IR Thermometer

### The Adtemp™ 424N features:

- 1 second, clinically accurate measurement at the ear
- Large, easy-to-read LCD display
- Color-coded backlit display: Green for normal readings, red for readings at and above 99.5°F
- Wide range 89.6 -109.4 °F (32.0 - 43.0 °C)
- °F/°C switchable display
- Fever alarm at 99.5°F (37.5°C)
- 30-reading memory with date and time stamp
- Audible beep when the measurement is complete, can be turned off for nighttime readings
- Auto-off conserves battery life
- Compact design measures 6.5" (16.51 cm) long and weighs 3.17oz. (90 g), including batteries
- Powered by two 1.5V AAA batteries, included
- Desktop storage caddy with built-in pop-up probe cover dispenser
- Includes 20 probe covers
- Meets EN ISO 80601-2-56 standards for accuracy
- Two-year warranty

# Neuro Set

## Neurological Hammer Set

Five of the most popular instruments for diagnosis of neurological function in one complete kit.

### The Neurological Hammer Set features:

- Taylor Hammer (#3693)
- Buck Hammer (#3691)
- Babinski Hammer (#3697)
- Queen Square Hammer (#3699BK)
- Wartenberg Pinwheel(#3695)

# Adscope® 603

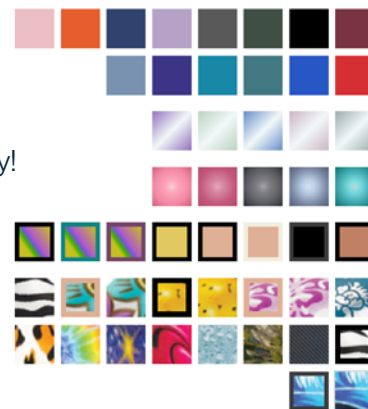

## Clinician Stethoscope

One of our most popular acoustic scopes, the 603 combines outstanding acoustic performance with rugged durability, now with AFD technology!

### The Adscope® 603 series features:

- Combination diaphragm/bell adult chestpiece precisely machined to exacting tolerances from surgical stainless steel for outstanding performance and rugged durability
- ADC's AFD technology provides enhanced acoustic response
- Light pressure for low, bell-type frequency, firm pressure for high, diaphragm-type frequency
- Extra large bell (1 3/8" diameter) for unsurpassed low-frequency response
- Ultra-sensitive diaphragm (1 3/4" diameter) for greater amplification and crisper high-frequency response
- Non-chill bell and diaphragm retaining rims for patient comfort
- Clinician headset boasts reinforcing yoke molded into the flexible 22" PVC tubing and stainless-steel binaurals fixed at 15° angle for greater comfort (tactical, copper, and irid scent models have aluminum binaurals)
- Tubing is soft and flexible and has been made without phthalates since 2014
- Adsoft™ Plus silicone eartips with new snap-on connection for the ultimate in wearing comfort and acoustic seal
- Includes accessory kit with two pairs of spare Adsoft™ Plus eartips
- Scope ID tag included
- Weighs 5.8 oz. (164 g)
- Overall length 30"
- Assembled, inspected, and packaged in the USA
- Lifetime warranty covers all parts

### Color options available

# Advantage™ 2200

## Fingertip Pulse Oximeter

A portable fingertip pulse oximeter ideally suited for home, sport, or aviation use.

### The 2200 features:

- Reads SpO<sub>2</sub> and Pulse Rate
- Accuracy: SpO<sub>2</sub> ±2% / HR ±2 BPM
- Clinically tested for accuracy with all skin tones
- 2 changeable display modes
- Bright red LED display
- Fits fingers with a thickness of 0.8 to 2.2 cm (0.3 to 0.9 in.)
- Carry Lanyard
- Two AAA Batteries
- Instruction Booklet
- 1 year limited warranty

# Adlite™ Pro

## Reusable LED Penlight

Our finest pocket light, the Adlite™Pro is the physician's choice for evaluation of the pupillary reflex.

### The Adlite™Pro features:

- LED lamp for bright, white illumination for true tissue rendering
- LED lamp provides 10,000 hours of use eliminating the high cost of replacement lamps
- Durable CNC machined brass housing in a striking black matte finish
- Measures 5 5/8" long, 1/2" diameter
- Positive feel power switch
- Convenient pocket clip
- Complete with two AAA batteries and an attractive gift box
- Lifetime warranty on LED lamp and a two-year warranty on penlight

# Blood Collection Safety Tube Holder

Dynarex LabChoice Blood Collection Safety Tube Holders are engineered to offer optimal protection against needlestick injuries during the blood collection process. The Holders are equipped with an attached safety shield that can be easily activated to cover needles after use for safe disposal. The transparent plastic holder allows for clear visualization. Dynarex Blood Collection Safety Tube Holders are single-use and disposable for optimal hygiene.

- Premium plastic holders designed to efficiently contain needles during blood collection
- Easy-to-use protective shield securely covers needles after use for safe disposal
- Holder is designed from transparent materials for clear visualization
- Single-use and disposable for optimal hygiene
- Not made with natural rubber latex or DEHP

## Pack Size

- Quantity per bag: 50
- Bags per Case: 16

6935	Luer Slip	200 per case

# Blood Collection Tube Holder - Luer Lock w/ needle

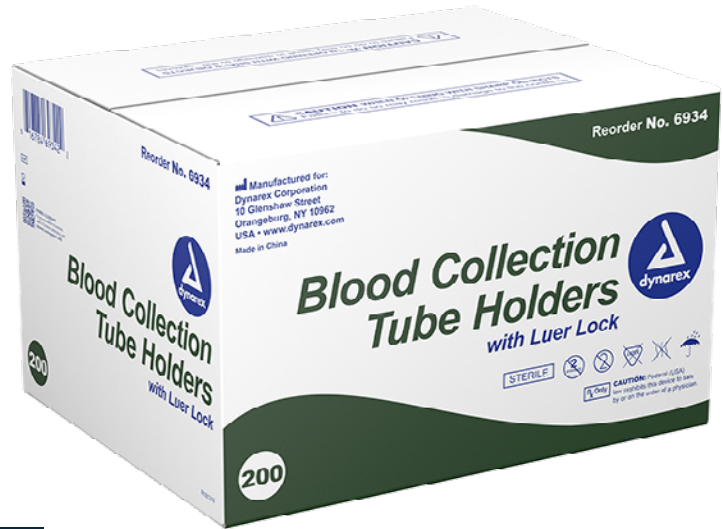

Dynarex Lab Choice Blood Collection Tube Holders are designed to provide effective connection to blood collection tubes and needles. These Tube Holders are constructed from translucent plastic materials for easy viewing and an easy-to-handle design for enhanced control.

- Compatible with blood collection needles, sets and tubes
- Translucent plastic allows for easy viewing of blood collection
- Slim design allows for improved grip and easier handling
- Single-use and disposable for optimal hygiene
- Available with luer-lock or luer-slip connections
- Not made with natural rubber latex or DEHP
- 6934-6935: Equipped with stainless steel needle

# Centrifuge Tube, PP

Dynarex LabChoice Centrifuge Tubes are designed to reliably hold liquids during centrifugation procedures. These Centrifuge Tubes are crafted from high-quality polypropylene for increased durability and improved corrosion resistance. The Tubes are made with a flat top, screw cap to help ensure a secure seal and reduce the risk of leakage. Transparent plastic materials provide enhanced clarity for easy monitoring of contents. Dynarex LabChoice Centrifuge Tubes feature a white writing panel for easy labeling and clear graduated marks for accurate measurement. These Centrifuge Tubes are autoclavable and freezable.

- High-quality tubes designed to reliably hold liquids during centrifugation procedures
- Crafted from polypropylene for optimal durability and reliability
- Flat top, screw cap helps provide secure closure
- Clear plastic offers optimal clarity for easy monitoring of contents
- Features white writing panel for easy labeling and identification
- Printed, easy-to-read graduated marks allow for precise measurement
- Designed to withstand forces up to 12,000 RCF
- Autoclavable and freezable
- Does not contain DNase, RNase, DNA, or pyrogens
- Available in sterile and non-sterile varieties
- 42100-42103: Convenient conical bottom aids in gathering solid or heavier components
- 42104-42105: Self-standing design allows for efficient handling and storage

## Pack Size

# Transport Swabs

Dynarex LabChoice Transport Swabs are crafted for efficiently collecting and transporting samples. The Swabs are contained in a round-bottom plastic tube with a dry transport system to protect samples during transit. The Transport Swabs feature a soft cotton or rayon tip for increased patient comfort during sampling. The Swabs are available with a snappable plastic shaft to allow for easy detachment of the swab tip for lab transport; or with a durable wooden shaft. Dynarex Transport Swabs are equipped with a plug cap, establishing a secure seal. The plastic tube features a convenient label for easy product identification.

- Designed for efficient sample collection and transportation
- Contained in round-bottom plastic tube with a dry transport system for enhanced protection
- 2 tip varieties: Crafted with soft cotton or rayon tip for improved patient comfort during sampling
- 2 stick varieties: Available with snappable plastic shaft for easy detachment of the swab tip; or durable wooden stick for optimal reliability
- Plastic tube features a convenient label to offer easy product identification
- Plug cap allows for a secure seal
- Not made with natural rubber latex

 Do Not Reuse

# Glass Test Tubes

Dynarex LabChoice Glass Test Tubes are constructed to reliably contain, store, or mix chemicals, microorganisms, fluids, and other substances for use in laboratory environments. These Test Tubes are molded from high-quality borosilicate glass for enhanced chemical resistance and reduced risk of contamination. These Tubes feature uniform, rounded bottoms for improved reliability. The smooth, fire-polished rims are crafted for enhanced safety. Dynarex LabChoice Glass Test Tubes are made from transparent materials to provide optimal clarity and visibility of contents.

- Premium test tubes designed to contain a variety of substances during laboratory testing
- Crafted from premium borosilicate glass for increased chemical resistance and durability
- Uniform, rounded bottoms provide optimal reliability
- Smooth, fire-polished rims offer enhanced safety
- Transparent glass allows for improved clarity and visibility of contents

# Culture Tube w/Dual

## Position Cap, PS

Dynarex LabChoice Culture Tubes with Dual Position Caps are designed to provide a controlled environment for cell and tissue culture growth. The Tubes are equipped with dual-position caps, allowing for aerobic culture in the loose position and anaerobic culture when sealed. The ribbed plastic cap design allows for enhanced grip and easier handling. Constructed from premium polystyrene materials, these Culture Tubes are crafted for increased durability and reliability. The Tubes are made from transparent materials to provide optimal clarity and visibility of contents. Dynarex LabChoice Culture Tubes with Dual Position Caps are available with or without printed graduations and marking areas, offering flexibility to suit various preferences.

- Sterile tubes designed to provide a controlled environment for culture growth
- Dual-position cap offers both aerobic and anaerobic conditions
- Constructed from premium polystyrene materials for optimal durability
- Ribbed plastic cap provides enhanced grip and easier handling
- Transparent design allows for improved clarity for monitoring contents
- Available with or without printed graduations and marking area

# Test Tube Racks

Dynarex LabChoice Test Tube Racks are designed for secure containment and improved organization of test tubes in laboratory environments. These premium Racks are crafted from high-quality polypropylene for enhanced durability. The three-tiered design enables seamless insertion and removal of tubes to allow for increased efficiency. These autoclavable Racks are designed for quick and easy assembly for added convenience. To maximize the efficient use of storage space, Dynarex Test Tube Racks are designed to be stackable when empty.

- Designed to provide stable support and improved organization of test tubes
- Crafted from premium polypropylene for optimal durability
- Three-tier design allows for convenient insertion and removal of tubes for enhanced efficiency
- Easily assembled with a quick snap for immediate use
- Stackable design allows for optimal storage space utilization
- Autoclavable

# Serological Pipettes, Sterile, Individually Packed

Dynarex LabChoice Serological Pipettes are premium-quality transfer tools engineered to provide accurate and efficient liquid handling in laboratory settings. The Pipettes are made from transparent plastic materials to allow for clear visualization of contents. Each Pipette is equipped with an aerosol barrier plug to help protect against contamination from both liquids and mists. The Pipettes feature reverse and negative graduations to allow for precise measurement and dispensing.

- Designed to deliver accurate and precise liquid handling
- Reverse and negative graduations allow for improved precision
- Equipped with aerosol barrier plug to help minimize the risk of contamination
- Transparent plastic materials allow for clear visualization of samples
- Color-coded by volume for easy size identification
- Compatible with most types of pipette controllers
- Anti-drip tips allow for optimal efficiency

# Electronic Pipette, Eight Channel

Dynarex LabChoice Electronic Pipettes feature a fully motorized piston drive for improved speed, accuracy, and consistency during aspiration and dispensing. The Electronic Pipettes have an ergonomic, lightweight design to promote optimal comfort and help minimize the risk of RSI (repetitive strain injury). Dynarex LabChoice Electronic Pipettes feature clearly visible digital displays for easy viewing of volume settings. These ambidextrous Pipettes are available in both single and multichannel models.

- Motorized piston drive allows for improved accuracy and consistent results
- Lightweight, ergonomic design helps to reduce the risk of RSI (repetitive strain injury)
- Clearly visible digital display allows for clear visualization of volume settings
- Features multiple pipetting modes for a variety of needs
- Ambidextrous for optimal versatility
- Includes USB cable and charging holder with adhesive for easy shelf or wall mounting
- 40100, 40101: Single-channel model
- 40110, 40111, 40112: Eight-channel
- Calibration certificate included

# Geriatric Chair Infinite Position Recliner

The Dynarex Infinite Position Geriatric Chair Recliner offers comfort and durability to patients in hospitals, clinics or assisted living facilities. With maximum flexibility, this chair shifts into four positions - a full recline, TV, Trendelenburg and full upright. The Trendelenburg and full recline are operated by a gas cylinder control which can only be attained by the patients and has a release handle for a quick position adjustment. The neutral-colored steel frame has side panels that remove allowing for easy an easy clean and maintenance. The built-in headrest and wide, comfortable, padded arm rests were constructed at an angle to provide support, even in a reclined position.

- Neutral-colored, sturdy steel frame
- Large, blow-molded tray locks in 5 positions
- Wide angled armrests provide additional support
- Includes a built-in headrest
- Retractable lock bar secures the chair in the desired position
- Moisture barrier on the vinyl seat prevents fluid seepage and contamination
- Weight capacity 250 lb.

# HARM REDUCTION

# HARM REDUCTION PRODUCTS

## **BTNX**

- Rapid Response 2.0 Fentanyl Test Strip
- Rapid Response 2.0 Xylazine Test Strip

## **PADAGIS**

- Naloxone HCl Nasal Spray 4mg

# Rapid Response™ 2.0 Fentanyl Test Strip

Rapid Response™ 2.0 Fentanyl Test Strips are the upgraded version of the world's #1 selling fentanyl test strips—designed to help prevent overdoses and promote safer substance use practices.

Trusted globally by harm reduction organizations, healthcare providers, and individuals, these test strips detect the presence of fentanyl and many of its dangerous analogues before consumption. Version 2.0 introduces significant improvements to accuracy, usability, and convenience.

## What's New in Version 2.0:

- **Fewer Cross-Reactions:** Improved strip chemistry reduces false positives caused by common interfering substances like Diphenhydramine, Levamisole, METH, and MDMA.
- **Micro Scoop Included:** Each strip comes with a micro scoop to simplify sample handling and ensure accurate measurements.
- **Same Trusted Accuracy:** Over 98% accuracy in detecting fentanyl in liquid ( $\geq 200$  ng/mL) and urine ( $\geq 20$  ng/mL).

# Rapid Response™ 2.0 Xylazine Test Strip

Updated Version 2.0 Now Available  
Rapid Response™ 2.0 Xylazine Test Strips are the upgraded version of the trusted screening tool for detecting xylazine — a dangerous veterinary sedative increasingly found in the unregulated drug supply, often in combination with opioids and cocaine. Version 2.0 has been enhanced to reduce false positives and deliver even more reliable results in harm reduction and research settings.

## What's New in Version 2.0:

- Improved Accuracy with Cocaine Samples: Now detects xylazine in substances like cocaine with no cross-reactivity with lidocaine — a common adulterant.
- Enhanced Test Strip Quality: Built-in procedural controls and clearer result visibility within 60 seconds.
- Micro Scoop Included: Makes sample handling easier and more precise.
